

## KjelMaster K-375

Free choice of methods at perfect usability

We provide solutions for both potentiometric and colorimetric titrations. The KjelMaster K-375 meets the highest demands in usability, automation, user administration and sophisticated data management.

### Comprehensively safe

Comply with any official method, data management and ensure safety

### Easy to use

Simplify routine operations and thorough data exchange

### Maximized productivity

Highest sample throughput by using automation and streamline procedures

# Your KjelMaster benefits at a glance

## Comprehensively safe

- Compliant and flexible plug-and-measure titration concept (colorimetric / potentiometric)
- Safe operation, user protection and guided routine operation
- Different access levels of authorization according to GLP requirements
- Reproducible results with smart distillation mode
- Data security supported by intelligent software

## Easy to use

- Intuitive operation via the large graphical color touch screen (8.4")
- Simple LIMS integration and traceable data recording
- No errors in routine operations by the sophisticated KjelLink PC software
- Optimal and stable working conditions by self-adjusting cooling water control

## Maximized productivity

- Shortest time-to-result due to well synchronized process steps
- Upgrade onsite for highest sample loads by connecting the KjelSampler
- Fully automated workflow for high sample loads
- Automatic data exchange with complementary peripherals

## Complete your portfolio

KjelSampler  
K-376  
Auto sampling  
24 positions

KjelSampler  
K-377  
Auto sampling  
48 positions

Digest Automat  
K-438 / K-432 / K-437  
Block digestion
