

Density Meter Testimonial P.E.T. Net Pharmaceuticals

A Rudolph Research Analytical testimonial from a Benchtop Density Meter user.

Dear Mike, We have been very pleased with our automated density meter system from Rudolph. Since we have analyzed 3000 samples and have not had a single problem. The autosampler that you customized for us is sampling directly from our process vials and returning samples to the vials without sample loss.

As far as results go, when we load samples into the autosampler racks, we analyze water “check standards” and the day-to-day consistency of these measurements is incredible. As you may recall, we replaced a tedious manual process with the automated density system. This system easily saves us three days of labor per month.

The density meter has exceeded our expectations. It provides fast, highly-accurate results and is now a key part of our system. We cannot be happier with the system.

Sincerely,

W.F. and A.B.

Rudolph Research Analytical is a global manufacturer and supplier of Density Meters.

Quality • Integrity • Innovation • Global Reach.

For over fifty years Rudolph has dedicated itself to manufacturing quality instruments and providing service. With over 5,000 instruments installed worldwide and many still in operation after 25 years of service, Rudolph understands the importance of quality, durability, reliability and is NVLAP certified. No matter what the application, Rudolph's comparators, polarimeters, saccharimeters, and accessories can meet your laboratory's needs for accuracy, reliability
