

NIRMaster

The New NIR Solution for Food & Feed Industry

Working at-line in food and feed industry requires a robust yet accurate instrument, safe and easy to maintain and to operate. BÜCHI introduces the first stand-alone FT-NIR spectrometer: The NIRMaster.

- **Easy to operate and to clean** with hygienic design in IP 54 or IP 65 protection
- **Best performance** for all working conditions with polymer or stainless-steel housing
- **Plug and play** with built in, reliable embedded PC
- **Robust and accurate** using the unique BÜCHI polarization interferometer FT-NIR technology
- **Efficient and time-saving** with pre installed calibrations
