Automatic Module

Hei-VOLUME Distimatic

The clever way of continuous evaporation

With the unique residue drainage of the Distimatic automatic module, unlimited quantities can be automatically distilled in unattended, continuous operation.

24 hours a day, 7 days a week.

- Automatic supply and removal of solvent mixture and condensate
- Almost one hundred percent solvent separation in automated unattended and continuous operation
- Individual determination of the concentration of the final product in order to prevent drying-out, crystallization and powder formation
- Automated supply of small volumes to avoid foaming
- Exchange of the storage and collecting vessels possible during the running process
- Permanent process monitoring via sensors, incl. full system shutdown in case of an emergency
- Compatible with all Heidolph rotary evaporators and large-scale rotary evaporators

Distimatic Integration Package

For integration into an existing vacuum and cooling liquid system without drainage of residue

- Hei-VAP Ultimate Control ML G9B XL
- Tubing set
